

Environmental Policy

GC Civil is a family owned construction company specialising in the design and construction of projects in the civil and landscape fields. We design, project manage and construct noise barriers, estate fences, sound walls, acoustic fences, sight screens, retaining walls and urban streetscaping.

The nature of the GC Civil's activities places particular emphasis on expertise, experience, capability and reliability. GC Civil's staff share responsibility for the quality of services supplied to clients, creating and maintaining a safe and healthy working environment, and ensuring that our projects are completed in an environmentally responsible manner.

GC Civil recognises its responsibility to care for the environment. GC Civil will carry out design, project management and construction activities in a manner that protects the environment.

To meet our environmental responsibility, GC Civil will:

- maintain and update management systems to include environmental responsibility
- meet all legislative requirements and any license conditions
- minimise the detrimental impact of any design, construction or operation on the environment
- monitor and manage our impact on the environmental to achieve continuous improvement
- implement resource conservation and waste minimisation programs within the organisation
- educate and involve staff in the achievement of our environmental objectives
- inform clients, industry associations and the general public of our environmental commitment
- ensure our goods and service providers reflect our environmental culture

Achievement of the goals set out in this statement is the responsibility of all personnel.

Signed:

Craig Simpson
